**T**HE Workmen's Compensation Board and the Board of License Commissioners for Ontario decline to recognize the claims or honour the prescriptions respectively of members, with whose addresses they are not acquainted.

If each member, when first locating, or later when changing his address, would notify the Registrar of the same, occasion for irritation or annoyance, due to the action of these Boards in this regard, would be at once removed.

---

It is of moment to the Members of the College, to bear in mind, that, under statutory enactment, the College is bound in each calendar year to supply certain Government Boards with a list of those of its members who are in good standing, and practicing in the Province of Ontario. A member is not in good standing who does not pay his fees, and until the Annual Certificate is taken out, representing payment of annual assessment dues, the College cannot assure these Boards in any given enquiry, that the certificate for the calendar year has been taken out, and that, therefore, the member concerned is in good standing in the College for the calendar year in question.

---

The Annual Assessment Fee of two dollars for each calendar year is due on and from the first day of January of said year.

Members will be drawn upon through the Bank for Assessment Dues in those cases only, in which such members indicate by letter to the College a desire to have drafts made upon them. In cases where drafts are not duly honoured, the practice of sending them will be discontinued.

## Announcement for the Academic Year 1921-1922

---

“The College of Physicians and Surgeons of Ontario” is the name adopted by the Medical Profession of the Province of Ontario in its corporate capacity. Every legally qualified medical practitioner in the Province is a member of this College. It is not an institution for the teaching of medicine.

The Medical Profession of Ontario was first incorporated under this name by an Act of Parliament of Canada passed in 1866. This Act was subsequently repealed by the Legislature of Ontario in 1869, and now the affairs of the Profession in this Province are regulated by an Act passed in 1874 (37 Vic., Cap. 30), commonly known as the “Ontario Medical Act”, and further amended in 1887, 1891, 1893, 1895, 1902, 1905, 1914-1915, and 1918-1919.

By this Act, the “Council of the College of Physicians and Surgeons of Ontario” is empowered and directed to enact bylaws for the regulation of all matters connected with medical education; for the admission and enrolment of students of medicine; for determining from time to time the curriculum of the studies to be pursued by them, and to appoint a Board of **Examiners**, before whom all candidates must pass a satisfactory **examination** before they can be enrolled as members of the College, and thus be legally qualified to practise their profession in the Province of Ontario.

The Council, moreover, has power and authority conferred upon it by this Act to fix the terms upon which practitioners of medicine, duly qualified in other countries, may be admitted as members of the College of Physicians and Surgeons of Ontario, this being the only mode in which they can become legally entitled to practise their profession in this Province.

For the information and guidance of students of medicine, the Profession, and the public generally, the Council, in conformity with the Ontario Medical Act, hereby promulgates for the year 1921-1922 the Regulations which herein follow, repealing all others heretofore in force.

# Regulations for 1921-1922

Every one who desires to obtain licentiate standing in the Province of Ontario, to enable him to practise medicine therein, must comply with the following requirements:—

## SECTION I.

### Matriculation

As preliminary to entrance upon medical studies in any Medical College or University recognized by this College, it is necessary for any one who so enters upon such studies, and who proposes to obtain later the license of this College (except as hereinafter provided), to satisfy the matriculation requirements of the same.

For purposes of registration of matriculation standing, any one of the following credentials will be accepted:

1. A certificate of having graduated in Arts or Science in any university of His Majesty's Dominions, or any other university approved of by this Council.
2. A certificate from the Registrar of any chartered Canadian University conducting a full Arts Course, that the holder thereof has passed the examination conducted at the end of the first year in Arts by such university.
3. A certificate of having passed the Senior Arts matriculation conducted by any chartered university of Canada.
4. A certificate of having passed the joint university senior matriculation examination in Arts as conducted by the Matriculation Board of Ontario.
5. A certificate of having passed the joint university examination for junior matriculation in Arts conducted by the Matriculation Board of Ontario.
6. A certificate of having passed the Junior matriculation in Arts, conducted by any Canadian University engaged in teaching medicine.

The qualifying certificate may be presented personally at the Office of the College, or may be sent by mail. If, upon inspection in the office, it is found satisfactory, it will be returned to the applicant, with an identification declaration form, which, when duly executed, will need to be sent back to the office, together with the associated fee of twenty-five dollars, when the applicant's standing will be registered.

## SECTION II.

### Curriculum

1. Every student who enters upon the study of medicine after Sept. 1, 1920, must spend a period of six years in actual professional studies, except as hereinafter provided; and the prescribed period of studies shall include six sessions of thirty teaching weeks in each session.

The Registrar of this College shall be required to exact from each candidate a certificate of graduation in Medicine from his College Registrar, and evidence that he has attended lectures for a full term of thirty weeks in each session, and further that such certificates must show that the candidate has attended not less than eighty per cent of such lectures, including hospital and laboratory work.

2. Graduates in Arts or Science of any college or university recognized by the Council shall be permitted to present themselves for their examination in five years, provided that during such course two years have been spent in the course of physics, chemistry, biology, and physiology, and examinations passed in these subjects while taking said university course.

3. Every student must attend the undermentioned courses in a University, College or School of Medicine approved of by the Council.

A course of thirty teaching weeks shall consist of at least sixty hours.

A course of fifteen teaching weeks shall consist of at least thirty hours.

Biology—One course of thirty teaching weeks.

Physiological Anatomy—One course of thirty teaching weeks.

Anatomy—Two courses of thirty teaching weeks each in descriptive and practical anatomy.

Each student will be required to prove that he has carefully dissected the entire human body.

Medical and Surgical Anatomy—One course of thirty teaching weeks.

Physiology—Two courses of thirty teaching weeks each.

Histology—One course of thirty teaching weeks.

Embryology—One course of fifteen teaching weeks.

Chemistry—Two courses of thirty teaching weeks each.

Medical Physics—One course of thirty teaching weeks.

Materia Medica, Pharmacy and Pharmacology—One course of thirty teaching weeks.

Medicine—Three courses of thirty teaching weeks each.

Clinical Medicine—Three courses of thirty teaching weeks each.

Surgery—Three courses of thirty teaching weeks each.

Clinical Surgery—Three courses of thirty teaching weeks each.

Midwifery—Two courses of thirty teaching weeks, and one course in Clinical Obstetrics, which shall consist of attendance upon not less than ten cases of labour.

Gynæcology—Two courses of thirty teaching weeks each.

Pathology and Bacteriology—Three courses of thirty teaching weeks each.

Diseases of Children—One course of thirty teaching weeks.

Therapeutics, Physio-Therapy (including Hydro-Therapy, Electro-Therapy, Massage and Manipulative treatment, X-Ray and Radio-Therapy)—One course of thirty teaching weeks.

Diseases of the Eye, Ear, Nose and Throat—Two courses of thirty teaching weeks each.

Hygiene and Preventive Medicine—Two courses of thirty teaching weeks.

Psychology—One course of fifteen teaching weeks.

Psychiatry—One course of fifteen teaching weeks.

Every student must serve as interne in a recognized hospital for at least six months.

#### 4. Courses prescribed for Homeopathic students:

Candidates wishing to be registered as Homeopaths must conform with the requirements regarding matriculation as found in Section 1.

Such candidates must also have complied with the full curriculum of studies prescribed from time to time by the Council for all medical students, but the full time of attendance upon lectures and hospitals required by the curriculum of the Council may be spent in such Homeopathic Medical Colleges in the United States or Europe as may be recognized by a majority of the Homeopathic members of the Council, and when such teaching body has been established in Ontario, it shall be optional for such candidates to pursue in part or in full the required curriculum in Ontario.

5. Graduates in medicine from "recognized" colleges outside the Dominion of Canada who desire to qualify themselves for registration must complete fully the practical and clinical curriculum required by the Council, and shall pass before the examiners appointed by the Council all the examinations hereinafter prescribed.

6. Graduates from other than "recognized" Colleges outside the Dominion of Canada who desire to qualify for registration by examination shall submit to the Executive of the Council their

credentials and the Executive shall have power to decide the eligibility of the candidate.

7. The following Schools in the United States are "recognized" as "Accredited Colleges":

University of California Medical School, Berkeley-San Francisco, California.

Leland Stanford Junior University School, San Francisco, California.

Yale University School of Medicine, New Haven, Conn.

North Western University School, Chicago, Ill.

Rush Medical College, Chicago, Ill.

University of Michigan Homeopathic Medical School.

College of Homeopathic Medicine of the Ohio State University.

New York Homeopathic College and Flower Hospital.

8. Reciprocal relations in issuing certificates have been entered into with the State Board of Pennsylvania.

### SECTION III.

#### **Examinations—Date and Place, and requirements of**

1. There shall be one Examination held by the Medical Council, and that at the end of the sixth year of medical study.

2. Every applicant for this examination must be a graduate of an approved Medical College, and must present certificates of attendance covering a period of six years, except as provided in paragraph 2, Section II.

3. The following shall be the subjects for said examination:

(1) Medicine and Preventive Medicine.

(2) Surgery.

(3) Obstetrics and Gynæcology.

4. The examination shall consist of two examinations on each subject: (1) "written" and (2) "oral" and "clinical."

5. Sixty per cent. of the marks will be required to pass in each subject. A candidate must take all three subjects at one examination, but he will only be required to pass subsequently on any subject or subjects upon which he has failed.

6. The Annual Examination in the Spring of each year shall be held in Toronto, Kingston and London, at such date as shall be fixed by Annual By-law. There shall also be a Supplemental Examination in the Fall of each year held only in the City of Toronto for candidates who failed in one or more subjects at the Annual Examination.

7. Candidates who intend to be examined by the Homeopathic Examiners shall signify their intention to the Registrar at least two weeks previous to the commencement of the examinations, due notice of which must be given to examiner by Registrar. Homeopathic students are to be examined by examiners approved by a majority of the Homeopathic members of the Council.

8. The Fall Examination for 1921 begins at nine o'clock on the morning of Tuesday, November 8th.

9. The Spring Examination for 1922 begins on Tuesday, June 6th.

### SECTION IV.

#### **Examinations—Duties of Registrar and Board of Examiners**

Rules for the guidance of the Registrar and the Board of Examiners:

1. The Registrar or a deputy Registrar must be present at every examination, and each student must produce evidence satisfactory to the Registrar or Deputy Registrar of his identity.

2. At the end of each written examination upon any subject, the answers to the questions are to be handed by the candidates to the Registrar, who will open the envelopes, in which they are hereinafter directed to be enclosed, and to each set of papers affix a number by which the author will be known to the Board of Examiners during the examination. The Registrar will then deliver the papers to those members of the Board of Examiners appointed by the Council to examine upon the subject, upon which these candidates have just been writing.

3. The papers when delivered to the members of the Board of Examiners appointed by the Council to examine on the subject, are to be by them examined, and the relative value of answers marked by means of numbers on a blank form which will be furnished to them by the Registrar.

4. The percentage in all subjects of the Professional Examinations shall range from 0 to 100, of which sixty per cent. will be required to pass in each subject.

5. The value awarded by the Examiners to the answers of candidates and confirmed by the Board of Examiners is final; and is not subject to revision.

6. In the event of any alterations or erasures in the marks of a paper, or of any question in a paper, the same shall be initialed by both Examiners.

7. The Examiners shall, on completion of their work, conjointly certify to the schedule of marks and books. Their report, including schedule of marks and books, completed and duly certified, shall be final, and shall forthwith be filed with the Registrar.

8. The Examiner shall return the schedule to the Registrar, with values inserted, within fifteen days of the close of examinations on his subject. From these values a general schedule shall be prepared by a chartered accountant associated with the Registrar, which schedule shall be inspected and signed by the President before the results are announced.

9. The Registrar, in notifying the members of the Board of Examiners, will direct attention to the following instructions, a copy of which he shall enclose.

(a) In preparation of questions Examiners will confine themselves to the principles common to the standard text-books.

(b) In referring to diseases or operations of any kind, the name of such disease or operation most commonly in use must be employed, and the Examiners shall refrain as far as possible from the use of proper names and ambiguous questions.

(c) In the preparation of the paper, opposite each question shall be placed the value of a full and correct answer thereof—the whole of such numbers to amount to 100.

(d) In the reading of papers the Examiners shall mark in colored pencil what they regard as the numerical value of the answers given for each question opposite the same.

(e) The oral and clinical examinations are to be made as practical, demonstrative or clinical as possible, and shall occupy at least thirty minutes.

(f) Candidates shall be known to the Examiners by numbers only.

(g) There shall be a dual Board of Examiners, namely one set of two examiners in each subject who shall conjointly set and examine each paper in the Written Examination and another set of two examiners in each subject who shall conjointly examine each student in the Oral and Clinical Examination.

(h) In the event of any alteration or erasures in the marks of a paper, or of any question in a paper, the same shall be initialed by both examiners.

(i) The Examiners shall meet at the close of the examination for consultation and consideration of reports before these are forwarded to the Registrar. The Examiners shall, on the completion of their work, conjointly certify to the schedules of marks and books. Their report, including schedules of marks and books completed and duly certified, shall be final, and shall forthwith be filed with the Registrar.

10. Candidates for oral examinations will be divided into classes alphabetically, and notified of the time at which they shall present themselves for examination. Such students shall wait in an adjoining room, and appear before the Examiners when summoned.

11. The Examiners in each subject shall meet at a convenient point to prepare the examination papers, and shall send each paper to the Registrar by registered mail at least two weeks before the date of examination. (The Examiners shall approve of the proofs before printing.)

12. As no appeal is now permitted from the findings of the Board, the President, with the Vice-President as his alternate, shall attend the usual meeting held by the Board of Examiners preparatory to handing in the Schedule of Examination Marks to the Registrar for consultation and consideration of said Schedule with the Examiners.

## SECTION V.

### **Examinations—Rules for Candidates in the Examination Hall**

1. Each candidate shall receive from the Registrar a programme containing a list of subjects upon which the candidate is to be examined, and it will admit him to the examination hall during the progress of the examination upon such subjects, but at no other time.

2. Candidates must write the answers to the question given by the Examiners legibly and neatly upon one side of each page of a book, which will be furnished to each candidate, and the number of each question, as it appears in the examination paper, is to be put at the head of the answer to it, in such a manner as to have the first page facing outward to the view: the papers then to be folded once and enclosed in an envelope, on the outside of which each candidate is to write his name. The packet is then to be handed to the Registrar or his Deputy. No signature, number or sign, by which the writer could be recognized by the Examiner, is to be written or marked on any portion of the book to be enclosed in the envelope.

3. The questions of the Examiners in the Homeopathic subjects will be handed, at the beginning of the general examination on the same subject, by the Registrar or Deputy, to such candidates as shall have given him notice in accordance with Section III., sub-sec. 7.

They shall write the answers to these questions in the same hall with the other candidates, and hand their papers, when finished, to the Registrar in the same manner as provided for other candidates, to be by him given for examination to the Homeopathic members of the Board of Examiners appointed to examine on that subject.

4. No candidate will be allowed to leave the hall after the questions are given out, until his answers have been handed in.

5. No one shall be allowed in the hall during the hours of examination, except those who are actually undergoing examination, or members of the Council or officials connected therewith.

6. Any candidate who may have brought any book or reference paper into the hall must deposit it with the Registrar before the examination begins.

7. Candidates must not communicate with each other while examinations are going on by writing, signs, words, or in any manner whatever.

8. Candidates must at all times bear themselves toward the Registrar or Deputy and Examiners with the utmost deference and

respect; and they will not be permitted in any manner to manifest approbation or disapprobation of any member of the Board of Examiners during the progress of the examination.

9. Candidates must not only conduct themselves with decorum while an examination is going on, but they will be held strictly responsible for any impropriety of conduct during the whole progress both of the written and the oral examinations.

10. Any infraction of the above rules will lead to the exclusion of the candidate who is guilty of it for the remainder of the examination; and he will not receive credit for any examination papers which may have been handed to the Registrar or Deputy previous to his being detected in such misconduct.

11. And he may be debarred from further privileges at the discretion of the Council.

## SECTION VI.

### **Registration of British Medical Practitioners**

Registration in the Register of The College of Physicians and Surgeons of Ontario confers the right to practise medicine, surgery and midwifery in the Province of Ontario under the provisions of The Ontario Medical Act.

It is necessary according to the provisions of The Ontario Medical Act and Regulations of the Council of The College of Physicians and Surgeons of Ontario, passed in accordance therewith, that any person applying to be registered as a British Medical Practitioner should produce to the Registrar documents or certificates as follows:

1. A certificate that the applicant is duly registered in the Medical Register of the United Kingdom of Great Britain and Ireland. (This certificate is obtained from the Registrar of the British Medical Council.)

2. Satisfactory evidence of identity.

3. Satisfactory evidence of good character.

4. Satisfactory evidence that diploma or diplomas in respect of which the applicant was registered in the Medical Register of the United Kingdom was or were granted to him at a time when he was not domiciled in the Province of Ontario or in the course of a period of not less than five years, during the whole of which he resided out of the Province of Ontario.

5. The documents and the prescribed fee (one hundred dollars) should, together with the enclosed forms duly filled in, be transmitted to the address set forth hereunder:

The Registrar of The College of Physicians  
and Surgeons of Ontario,  
170 University Avenue,  
Toronto.

## SECTION VII.

### MEDICAL COUNCIL OF CANADA

#### Registration of Licentiates of the Medical Council of Canada

Licentiates of the Medical Council of Canada can register their standing as such in the various Provinces of Canada, and acquire by virtue of such registration the right to engage in the practice of medicine in any Province in which they may choose to register, subject only to local Medical Council requirements.

The requirements of the College of Physicians and Surgeons of Ontario, to permit of such registration, call for production of official certificate from the Medical Council of Canada of licentiate standing therein, evidence of good character, and payment of fee of seventy-five dollars.

☛ Medical students, proposing to ultimately acquire the license of the Medical Council of Canada by examination, are advised to bear in mind, that, with a view to being permitted to become candidates for such examination, they must furnish to the Registrar of the Medical Council of Canada an official certificate issued by one of the Provincial Medical Councils, that they have fully satisfied the requirements of the Medical Council of the Province in question, as to matriculation standing, and as to possession of a degree in medicine from a University or Medical College approved by the Medical Council in question.

They are further advised to remember, if they propose to obtain such a certificate (technically known as an "enabling certificate") in the Province of Ontario, that they must register their matriculation standing (of whatever nature and wherever obtained) with the College of Physicians and Surgeons of Ontario, before they enter upon their medical studies in any University or Medical College. (The matriculation requirements of the College of Physicians and Surgeons of Ontario will be found set out in detail on page 12 of the Annual Announcement.)

The fee associated with registration of matriculation in Ontario is twenty-five dollars. This fee is never, under any circumstances, refunded.

The fee associated with the issuing of an enabling certificate is also twenty-five dollars. A refund of twenty dollars of this amount is made in those cases, in which students who have paid the twenty-five dollar fee for the enabling certificate, and who have later obtained licentiate standing in the Medical Council of Canada, register the same at some later date in Ontario, with the College of Physicians and Surgeons of Ontario.

(Full information as to requirements of the Medical Council of Canada can be had, by making application to Dr. R. W. Powell, Registrar, Medical Council of Canada, 180 Cooper Street, Ottawa, from whom also must be obtained the blank enabling certificate forms, to be filled in by the Registrar of a Provincial Council.)

## SECTION VIII.

### Fees

1. The following scale of fees has been established by the Council of the College of Physicians and Surgeons of Ontario:

- (a) Registration of Matriculation standing.....\$25.00
- (b) Fee for Final examination (this includes registration of licentiate standing, when so obtained, and issuance of diploma) .....\$75.00
- (c) Annual Assessment Dues.....\$2.00

(This fee is due and payable on and from the first day of January of each calendar year, and covers the calendar year in question. The payment of this fee, which is imposed annually upon every member of the College, under By-law of the Council, is a sine qua non of good standing in the College. No member can claim recognition as such before the Courts of Law of the Province of Ontario, to whom the Annual Certificate, representing the payment of this fee, has not been issued.)

- (d) Fee payable by licentiates of the Medical Council of Great Britain, who ask to be registered as licentiates of the College of Physicians and Surgeons of Ontario.....\$100 00
- (e) Fee payable by licentiates of the Canada Medical Council, who ask to be registered as licentiates of the College of Physicians and Surgeons of Ontario ..... \$75 00

- (f) Fee payable by licentiates of the College, for Official Certificate, indicating the date of their registration with the College, and of their being in good standing in the College at the time of the issuing of the Certificate, for presentation to the Canada Medical Council. (This applies equally to those licentiates who propose offering themselves for examination before the Canada Medical Council, and those licentiates of not less than ten years' standing, who seek registration with the Canada Medical Council, without examination.) \$5 00
- (g) Fee payable by matriculants of the College, who ask for official enabling certificate to permit them to appear before the Medical Council of Canada for examination .....\$25 00

(A refund of twenty dollars is made to those matriculants of the College, who have paid the twenty-five dollar fee for such enabling certificate, and who later become licentiates of the College, either by passing its examinations, or by registration with it of Canada Medical Council licentiate standing.)

- (h) Fee payable by matriculants or licentiates of the College, for certificate of standing in the College, for presentation to State Medical Registration Boards in the United States .....\$25 00

2. All fees must be paid in lawful money of Canada, to the Treasurer of the College. The Office of the College is at 170 University Avenue, Toronto. Payments may be made in person or by mail.

3. Examination fees to accompany application form of candidates for examination, and to be in the hands of the Registrar not less than two weeks before the date set for the beginning of the examinations.

4. No candidate will be admitted to any examination until the fee for such examination is paid in full.

5. Candidates who have failed in any professional examination in one or more subjects will be allowed to take the next ensuing Spring examination, without payment of further fee, but any Supplemental Examination taking place in the Fall calls for the payment of a fee of twenty-five dollars (\$25.00).

6. If a membership diploma is accidentally destroyed, it may be replaced, with the consent of the Council or Executive Committee, upon presentation of statutory declaration as to manner of its destruction, and payment of cost of replacement.

# By-Laws of the Council OF The College of Physicians and Surgeons OF ONTARIO

---

## BY-LAWS

### BY-LAW No. 1.

In the following by-laws, unless there be something in the subject or context inconsistent therewith, the words:

1. "The Council" shall mean "the Medical Council of the College of Physicians and Surgeons of Ontario."

2. "Member" shall mean "Member of the College of Physicians and Surgeons of Ontario."

3. "The College" shall mean "the College of Physicians and Surgeons of Ontario."

---

### BY-LAW No. 2.

#### Elections

1. (a) In the event that an election shall require to be held for the election of a new Council or to fill a vacancy caused by the death, resignation or disqualification of any member elected from a territorial division to the Council, the Registrar shall send to all members entitled to vote at such election (except those registered as Homeopathic members) a circular letter stating that an election will be held for the purpose of electing a new Council or to fill such vacancy (as the case may be), that nominations will be received within thirty days after the date on which such circular letter shall be mailed, and that nomination by twenty members entitled to vote is necessary to render a candidate eligible for election.

(b) In the case of an election of a new Council the Registrar shall advertise in the medical journals published in Toronto (for a period of thirty days after the date on which the said circular letter shall be mailed) the fact that elections for the Council are to be held, stating the last date on which nominations will be received, and the approximate time of holding the elections.

2. In the event of only one candidate being nominated in any territorial division, the Registrar shall notify him that he has been duly elected a member of the Council, but if more than one candidate eligible for election is nominated, the Council, or the Executive Committee, or (in the absence of an appointment so made) the Registrar on the recommendation of such Executive Committee shall appoint a member of the College, resident in such division, to act as returning officer, and shall mail to all registered members entitled to vote (except those registered as Homeopathic members) a voting paper and circular letter of instructions, which shall be similar to the forms set out in Schedules "A" and "B" respectively appended to this by-law. Such voting paper duly filled out must reach the returning officer on or before the first juridical day after the expiration of fifteen days following the mailing thereof by the Registrar.

3. The returning officer shall, on the day and time stated in the circular letter of instructions and not prior thereto, open the envelopes, carefully count and examine the voting papers, make a record of the entire number of votes cast, and of the name and address of the person receiving the greatest number of votes, who shall be declared elected as the representative of the division, and in case two or more candidates receive an equality of votes the returning officer shall give the casting vote for one of such candidates which shall decide the election.

4. The returning officer shall permit all or any of the candidates in the division or their agents duly appointed and authorized in writing to act on their behalf to be present when the envelopes are opened and the votes counted, and to examine all voting papers to satisfy themselves as to the voting papers being properly filled up, and that the persons signing the voting papers are duly registered members of the College and entitled to vote at the election.

5. (a) The returning officer shall seal up and return all voting papers connected with the election to the Registrar within six days from the time appointed for holding the election.

(b) The returning officer shall return all envelopes containing voting papers, received after the date and hour mentioned in circular letter of instructions to the Registrar, unopened and marked "too late." Such envelopes shall bear his stamp as returning officer of the division.

6. The Registrar, on receiving declaration from the returning officer, declaring a candidate has received the largest number of votes in the division, shall forthwith inform the candidate declared elected that he has been chosen to represent said division in the Medical Council of the College of Physicians and Surgeons of Ontario, and the Registrar shall inform each member so elected of

the time and place of the first meeting of the Council after the said election shall have taken place.

7. At the said meeting of the Council the Registrar shall submit all the papers and documents sent to him by the returning officer or officers (as the case may be).

8. The fee for the returning officer for each election shall be twenty-five dollars.

## BY-LAW No. 3

### Election of Homeopathic Members

1. This by-law shall apply only to the election of the Homeopathic Members of the Medical Council.

2. In the event that an election shall require to be held for the election of a new Council the Registrar shall send to every registered Homeopathic member of the College a circular letter stating that an election will be held for the purpose of electing a new Council, and that nominations will be received within thirty days after the date on which such circular letter shall be mailed. In the event of the death or resignation of any member of the Council representing the Practitioners of the Homeopathic System of Medicine, the remaining representatives of the Homeopathic System in the Council may fill such vacancy by selecting from amongst the duly registered Practitioners in Homeopathy a person to fill the said vacancy.

3. In the event of only five candidates being nominated for the new Council (or in the case of a vacancy, one candidate) the Registrar shall notify them that they have been duly elected members of the Council, but if more than five candidates eligible for election are nominated (or in the case of a vacancy, one candidate) the Registrar shall act as returning officer, and shall mail to every registered Homeopathic member of the College a voting paper and circular letter of instructions which shall be similar in form to those set out in Schedules "A" and "B" respectively appended to this by-law.

4. Such voting paper duly filled out must reach the Registrar on or before the first juridical day after the expiration of fifteen days from the mailing thereof by the Registrar.

5. The Registrar shall on the day and time stated in the circular letter of instructions, and not prior thereto, open the envelopes, carefully count and examine the voting papers, count the votes, make a record of the votes cast, and inform by letter the five candidates (or in the case of an election to a vacancy, one candidate) having the largest number of votes, that they are elected as the Homeopathic representatives on the Council. The Registrar shall, after carefully counting the votes contained in the envelopes, seal up the voting papers and all other documents, etc., sent to him connected with such election, and present them to the Council at its next meeting.

6. No voting paper shall be counted that is not properly filled out in accordance with the instructions contained in the circular letter accompanying the voting paper despatched to the voter.

7. The Registrar shall permit any candidate, or his agent duly appointed and authorized in writing, to act on his behalf, to be present at the counting of the votes and to satisfy himself as to the voting papers being properly filled up, and that the persons signing the voting papers are duly registered members of the College and entitled to vote at the election.

### MEETINGS

1. The Council shall hold one session annually in the City of Toronto, commencing on the first Tuesday in July of each year at the hour of two o'clock p.m.

2. The Executive Committee may at any time convene a special session.

3. It shall be the duty of the President to convene a special session upon the written requisition of at least one-half of the members of the Council.

4. Any such requisition, and the notice calling any special session, shall specify the object of the meeting. The requisition shall be signed by the members making the same, and shall be deposited at the office of the Registrar. It may consist of several documents in like form, each signed by one or more of the requisitionists. The session must be convened for the purpose specified in the requisition and in the notice calling the meeting, and only such business as is mentioned in the notice calling such special session shall be transacted thereat.

5. In case the President, for fourteen days after the deposit of such requisition, fails to give notice of the special session, the requisitionists may themselves give notice of the meeting which shall be held within six weeks after the deposit of the requisition therefor.

6. Special sessions shall be held at such time and place as shall be mentioned in the notice calling the same.

## BY-LAW No. 5

### OFFICERS

1. The Officers of the Council shall be a President, Vice-President, Registrar, Treasurer, Public Prosecutor, Auditor, and Solicitor, and such others as the Council may deem necessary.

2. Except as provided in Article 4 the President shall preside at all sessions. In his absence the Vice-President shall take the chair, and in the absence of both these officers, the members of the Council then present shall choose some one of their number as Chairman.

3. The President and Vice-President shall be ex-officio members of all committees, standing and special, except the Committee on Discipline and the Executive Committee.

4. The Registrar shall furnish upon request information on any subject within his jurisdiction to the Council, or any of the Committees. He shall make report to the Council of the conduct of his office, and shall perform all duties imposed upon him by the Ontario Medical Act and the By-laws of the Council, and shall be subject to the direction of the Council.

5. The Treasurer shall ~~collect~~ all dues, receive and account for all moneys due to the College, ~~pay~~ out moneys only upon cheques signed by the President or Vice-President, or Chairman of the Finance Committee, and countersigned by the Treasurer.

6. The Treasurer shall give to the College a bond in amount and form satisfactory to the Council, and the premium thereon shall be paid by the College.

7. The Registrar, Treasurer and Public Prosecutor may retire from their offices by giving one month's notice in writing of their intention so to do, and such resignation, if accepted, shall take effect upon expiration of such notice.

The Council when requiring to dispense with their services shall give to these three officers one month's notice in writing of their intention so to do, or one month's salary in lieu of notice.

#### BY-LAW NO. 6—PROCEEDING AT MEETINGS

##### ORGANIZATION

1. At the first meeting of the new Council the Registrar shall call the Council to order, read over the names of members, and request it to elect a Committee on Credentials, and upon the reception and adoption of the Committee's Report the Registrar shall call upon the Council to elect a President.

2. The Officers shall be elected after nomination by open vote, the vote being taken on the nominees in the order in which they were nominated. In the case of an equality of votes, the presiding officer, as on all other questions, shall give the casting vote, provided an equality of votes for the office of President shall be decided by the member present, representing the greatest number of registered practitioners. When only one candidate is nominated it shall be the duty of the presiding officer to declare him duly elected.

3. The first business of the annual session, after the organization of the Council, shall be the election of officers and the appointment of a Committee to nominate the standing committees.

## ORDERS OF THE DAY

4. The general order of business for the day shall be as follows:

(a) Calling names of members and marking them as present or absent.

(b) Reading of the Minutes.

(c) Reading of communications, petitions, etc.

(d) Reception of reports of committees.

(e) Notices of motion.

(f) Motions of which notice has been given at a previous meeting.

(g) Inquiries.

(h) Consideration of Reports.

(i) Unfinished business from previous meeting.

(j) Miscellaneous business.

All resolutions and reports must be taken up as they appear in the Order of the Day, and no variation of the foregoing order of business shall be permitted, except by consent of the Council.

## RULES OF ORDER

5. When any member is about to speak in debate he shall rise in his place and address the presiding officer, confining himself to the question under debate.

6. When two or more members rise at the same time the presiding officer shall name the member who is first to speak.

7. No member, while speaking, shall be interrupted by another, except upon a point of order, or for the purpose of explanation. The member so rising shall confine himself strictly to the point of order, or the explanation.

8. If any member, in speaking or otherwise, transgress the rules, the presiding officer shall, or any member may, call him to order, in which case the member so called shall immediately sit down, unless permitted to explain.

9. No member shall speak more than once upon any motion, except the proposer thereof, who shall be permitted to reply, nor shall any member speak longer than a quarter of an hour on the same question without the permission of the Council, except in explanation, and he must then not introduce new matter.

10. Any member of the Council may require the question under discussion to be read at any time of the debate, but not so as to interrupt the speaker.

11. When the matter under consideration contains distinct propositions, under the request of any member the vote upon each proposition shall be taken separately.

12. No member shall speak to any question after the same has been put by the presiding officer.

13. Notices shall be given of all motions for introducing new matters other than matters of privilege and petitions at a previous meeting to that at which it comes up for discussion, unless dispensed with by a two-thirds vote of the members present. Any matter when once decided by the Council shall not be reintroduced during that session, unless by a two-thirds vote of the Council then present.

14. A motion must be put in writing and seconded before it is stated by the presiding officer, and then shall be disposed of only by a vote of the Council, unless the mover, by permission of the Council, withdraws it. Every member present shall vote unless excused by the Council.

15. At the close of the annual session the minutes of the last meeting shall be read, approved and signed by the presiding officer.

16. In all cases not provided for by these rules, resort shall be had to the procedure of Parliament.

17. The Registrar shall make a list of all motions and reports on the table in the order in which they were received, which shall be considered under the heading "General Orders of the Day."

18. The presiding officer shall preserve order and decorum during each session of the Council, and protect the members in the enjoyment of their rights and privileges. He shall decide all questions of order, giving his reasons for such decision, and citing the rule applicable to the case, subject, however, to an appeal to the Council, and in case of an appeal it shall be put by the presiding officer in the following words: "Shall the chair be sustained?"

19. All questions of order upon which an appeal has been made from the decision of the presiding officer shall be decided by a direct vote of the Council without debate.

20. The presiding officer shall declare all votes, but, if any members demand it, such presiding officer, without further debate on the question, shall require the members voting in the affirmative and negative, respectively, to stand until they are counted, and he shall then declare the result. At the request of any two members the yeas and nays shall be taken and recorded.

21. The presiding officer shall not give any other than a casting vote, but may express his opinion on any subject under debate.

22. The presiding officer shall consider a motion to adjourn as always in order; but no second motion to the same effect shall be made until after some intermediate business has been transacted. This motion must be put without debate.

23. No motion except to adjourn shall be introduced unless it ~~be~~ written in ink and contains the names of the mover and seconder.

24. Every ~~motion~~ shall be read by the mover, standing in his place; it shall then ~~be handed to~~ the presiding officer, who shall read and submit it to the Council.

25. When a question is under debate, no other motion ~~shall~~ be entertained except a motion to amend, to commit, to postpone, or to lay on the table, or a motion for the previous question, or for adjournment, which last shall always be in order except when the Council is in Committee of the Whole.

26. Amendments, whether in Committee or in Council, shall be submitted to the vote before the original motion, in the reverse order in which they are moved.

27. A motion for commitment, until it is decided, shall preclude all amendments to the main question.

28. A motion to postpone shall include a day to be named for the further consideration of the question.

29. A motion to lay on the table shall be taken without debate; when it prevails the subject matter shall not be revived during the session except by a two-thirds vote of the Council.

30. The "previous question" until it is decided shall preclude all amendments to the main question, and shall be put, without debate, in the following words: "Shall the main question be now put?" If this motion be resolved in the affirmative, the original question is to be put forthwith, without amendments or debate.

31. Whenever the presiding officer shall consider that a motion before the Council is contrary to the By-laws or inconsistent with the report or other matter to which it was intended to refer, it shall be his duty to rule it out of order.

### COMMITTEES

1. The Standing Committees shall be the following:

- (a) Registration, consisting of five members.
- (b) Education, consisting of nine members.
- (c) Finance, consisting of five members.

- (d) Rules and Regulations, consisting of six members.
  - (e) On Complaints, consisting of five members.
  - (f) On Printing and Property, consisting of three members.
- And the following Statutory Committees:
- (g) Executive, consisting of five members.
  - (h) On Discipline, consisting of not less than five members.

2. A majority of the members of any committee shall constitute a quorum, provided the said quorum be not less than three members.

3. When a committee presents its Report it shall be received without motion or debate. On reaching the order of business, "The Consideration of Reports," the reports previously received shall be taken up in order of their reception, and may be acted on directly by the Council, or referred to the Committee of the Whole.

4. On motion of any member the Council may resolve itself into a Committee of the Whole for the consideration of a By-Law, report, or other matter, when the presiding officer shall leave the Chair, naming a member to act as Chairman of the Committee, who shall have the same authority in Committee as the President in the Chair of the Council.

5. When any report of the Committee of the Whole is submitted to the Council, as provided in the preceding section, it shall be either adopted or rejected, or referred back to committee with instructions to amend or postpone to a time to be fixed for asking the concurrence of the Council.

6. The By-Laws of the Council, except as provided by Article 4, Sections 8 and 19, shall be observed in Committee of the Whole; and the motion for the previous question or for an adjournment can be received; but a member may at any time move that the Committee now rise, or that it shall rise and report progress.

7. On motion in committee to rise, or to rise and report progress, the question shall be decided without debate.

8. Committees appointed to report on any subject referred to them by the Council shall report a statement of facts and also their opinion thereon in writing, and it shall be the duty of the Chairman to sign and present the report.

9. All petitions and communications on any subject within the cognizance of the standing committee shall, on presentation, be referred by the presiding officer to the proper committee without any motion; but it shall be competent for the Council by a two-thirds vote to enter upon the immediate consideration thereof.

10. Every member who shall introduce a petition or motion upon any subject which is referred to a select committee appointed to consider such motion or petition, shall, during the sittings of the Council, be one of the Committee, without being named by the Council, and shall be the convener of the said Committee.

11. Any member of the Council may be placed upon a Committee notwithstanding the absence of such member at the time of his being appointed to such committee.

##### EXAMINATIONS

Spring examinations shall be conducted in Toronto, Kingston and London, and also a Fall Examination in Toronto at such times and in such manner as the Council may direct.

## BY-LAW No. 16

### ANNUAL FEES

1. Each member of the College shall pay to the Registrar toward the general expenses of the College for each calendar year an annual fee of Two Dollars (\$2.00), pursuant to the provisions of the Ontario Medical Act, Revised Statutes of Ontario, 1914, Chap. 161, Section 21, Sub-Sec. 1.

The fee for the calendar year of 1921 is now due and payable.

The annual fees are to be applied toward the general expenses of the College, and shall be due on and from the first day of January of each year, and shall be based upon the levy imposing same made at the Annual Meeting of the Council first preceeding the year in question; and such fee shall be deemed to be a debt due by each member to the College, and shall be recoverable with costs of suit in the name of the College of Physicians and Surgeons of Ontario, in the Division Court of the division in which the member resides.

2. The annual fee shall not be due and payable by any members of the College, who by reason of absence from the Province, or otherwise, shall in no way practice Medicine, Surgery or Midwifery in the Province of Ontario during the entire currency of the calendar year for which such annual fee may be imposed, but such member of the College shall notify the Registrar that he is leaving the Province, and inform him when he returns. Upon due notification it shall be the duty of the Registrar to exempt him from the fee imposed for such period of time.

The member so claiming shall prove to the satisfaction of the Registrar that he has not practiced his profession in the Province of Ontario during the year or years for which such fee has been imposed, but shall, if the Registrar require it, make a statutory declaration to that effect, and furnish such other evidence as may be required.

The decision of the Registrar upon such application as to the liability of the applicant for the fee in question shall be final and conclusive, subject to appeal to next meeting of Council.

## BY-LAW No. 17

### ANNUAL CERTIFICATES

1. Every member shall obtain from the Registrar annually before the last day of January in each year a certificate under the seal of the College that he is a duly registered medical practitioner.

2. Upon payment of all fees and dues payable by such member of the College the Registrar shall write his name on the margin of the certificate and the date thereof, and the certificate shall be deemed to be issued only from such date.

3. No certificate shall be issued to any practitioner who is indebted to the College for any sums payable to the College, nor until the annual fee for such certificate is paid.

4. If a member omits to take out such annual certificate he shall not be entitled thereto until he pays to the College the certificate fee as aforesaid, together with any other fees or dues which he owes to the College.

5. After twelve months' default in taking out such certificate, and if two months' notice of such default be given by registered letter addressed to the registered address of such defaulter, the Registrar shall, if payment has not been made by the defaulter, erase his name from the Register, and the provisions of the Ontario Medical Act as to unregistered medical practitioners shall forthwith apply to such medical practitioner.

6. Such medical practitioner may, unless otherwise disqualified under the Ontario Medical Act, at any time after his name is so erased by the Registrar, obtain re-registration by applying to the Registrar and paying all arrears of fees and dues owing to the College, under this Act, and taking out his certificate as herein provided, and he shall be thereupon reinstated to the full privileges enjoyed by other registered medical practitioners under the Ontario Medical Act.

7. Any fees properly charged by such medical practitioner during the time in which he was in default in payment of any fees or dues to the College shall be legally recoverable upon production of the certificate of registration at the time of suit.

Minutes of the Meeting  
OF THE  
MEDICAL COUNCIL OF ONTARIO  
JUNE, 1921  
*FIFTY-SIXTH ANNUAL SESSION*

---

FIRST DAY

The Annual Meeting of the Council of the College, first following the Quadrennial Elections of last Fall, began at two o'clock this afternoon, Tuesday, June 28th, 1921, in the College Chambers.

CALLED TO ORDER

The Registrar called the Council to order, read over the names of members, and requested it to elect a Committee on Credentials.

COMMITTEE ON CREDENTIALS

On motion of Drs. Kellam and Argue, a Committee on Credentials, consisting of Drs. King, Kellam, Argue, Brodie and Ferguson, was appointed to examine the election returns of the newly elected Council.

COMPOSITION OF COUNCIL

The Committee retired, examined the returns, and reported as duly and properly elected, the following gentlemen:

#### *President's Address*

Dr. Routledge, the retiring President, then addressed the Council as follows:

Gentlemen:—Although the conscientious performance of the labors connected with a responsible office does not entitle the individual who has filled it to any special compliment, inasmuch as he has simply done his duty, yet it is a great satisfaction to me to receive, in vacating the Chair as President, an expression of cordial friendship and goodwill from men who have so materially assisted me in conducting the affairs of the Council during the past year. You know the fable of the bundle of sticks. Separated from each other, even the toughest of them were easily broken, but combined they withstood the strongest pressure. In like manner, my efforts to render assistance to the Council proceedings would have been futile, if they had not been practically sustained by able and

energetic assistance. If together we have achieved success, the merit belongs to us in common, for the head is nothing without the arms.

In order to keep up the standing of the College of Physicians and Surgeons of Ontario and protect the general public, we must enlist the sympathy and active support of the Medical Profession and with it co-operation on the part of the government of our country. If we can successfully direct their energies along our line, we will enhance our outlook materially.

It is not my intention to even attempt to criticise the Ontario Medical Council. It has had a useful record of over half a century, and has endeavoured to protect the profession and general public against fads and quacks in medicine and keep up the standard.

Drs. Emmerson and Ferguson, the two past Presidents, in their retiring addresses, were very thorough and painstaking in commenting and making recommendations on the routine work of their Presidential years, and I shall now briefly direct your attention to a few matters concerning the College, which call for notice.

The year through which we have been passing has been one largely of readjustment, in which the interests of the community as a whole, and of those of its integral parts, have been alike concerned.

There cannot be said to have been great general progress in what has been actually accomplished, and yet much has been done in the way of preliminary survey work, which we trust will eventuate in great good for the public and the profession.

Permit me for a brief moment to revert to some of the proceedings of our last Annual Meeting.

A number of matters were discussed, and resolutions passed, having relation to the same, to which I draw your attention once more.

Dr. Brodie's repeated efforts to have Government Analysis of Pharmaceutical preparations and drugs prescribed by members of the Medical Profession for use by their patients seems within reasonable distance of realization. The Council referred this question to its Legislative Committee, to have the latter take it up with the proper authorities. This Committee was primarily charged with the duty of interviewing the Government with regard to legislation sought by the College, to accurately define the meaning of the term "the practice of medicine," and, based upon the same, to determine the extent to which men, inadequately trained, or having no training at all, should be free to exploit the public. The Committee was not called together, in view of the fact, that the Premier very clearly intimated to representatives of the various "cults" interested in perpetuating a situation enuring to their profit, as well as to the Chairman of our Legislative Committee, that changes in the Medical Act would

not be made at the then current sitting of the House. Because of this announcement, no meeting of the Committee was held, and consideration of the question of Government Analysis of Pharmaceutical Preparations had to be taken up through correspondence. The Chairman of the Legislative Committee, Dr. Edmund E. King, and I pay him the compliment of saying that he has been indefatigable in his efforts to promote the interests of the College, acting on behalf of the Committee, made extensive enquiries in this connection, and I quote a passage from a letter addressed to him by Dr. J. W. S. McCullough, Chief Officer of Health for Ontario:—

“With reference to the two resolutions of the College of Physicians and Surgeons, I beg to say that the one in reference to a laboratory in connection with the Federal Department of Health was brought forward at the meeting of the Dominion Council on the 18th instant. The Deputy Minister assured me that he expected to have such a laboratory established and when it was established it was proposed to carry on therein the examination of the various drugs and other products used in the treatment of disease.”

It looks at length, as if the persistent effort of our representative from Woodstock, to have this service duly instituted, will meet with appropriate reward.

The resolution of Dr. Brodie, with relation to having Coroners notified of deaths occurring in cases, where irregular practitioners have been treating the same within ten days of their death, is at present engaging the attention of the Attorney-General.

You will remember that Dr. Stewart proposed the establishment of a Pension Fund, to meet the requirements of aged or infirm members of the College, who did not have available means to enable them to pass their declining years free from apprehension as to what a dark future might have in store for them. The question of the right of the College to use any portion of its funds for this purpose was submitted to our Solicitor for his opinion. He expressed it as his view, that not only could the Council not, without special legislation permitting it to do so, divert any of its funds in this direction, but that the members of the Council might render themselves personally liable for monies so expended.

Dr. Walters' motion, providing for a special marker for doctors' motor-cars, to be paid for out of the funds of the College, would, in the judgment of our Solicitor, also call for special legislation to become effective.

The Executive Committee, in its meetings held throughout the year, has kept closely in touch with all matters affecting the interests of the College.

The most outstanding one of these is the question of Medical Legislation. This has always been a vexed one, and the prospect of the College obtaining from the Legislature such legislation as it deems essential to best protect the interests of the public is not in any way heightened by reason of its failure to harmonize the views and viewpoints of its own members. Working agreements, based upon mutual concessions, are almost always attainable, and propositions made to the Legislature, representing practical unanimity of view on the part of the profession, could hardly fail to meet with sympathetic response. The community not unreasonably asks of the profession that it live up to its best traditions, and regard as its logical mission the exercise of unremitting care over the welfare of the people. Once convinced of its earnest desire to serve the public faithfully and without limitation, the Legislature will not be found to stand in the way of granting all reasonable requests.

The Medical Council, so long as it enjoys and exercises its present functions must regard its work as largely legislative in character, and as primarily and preeminently concerned with the task of caring for the welfare of the public, while the Ontario Medical Association, more elastic in its constitution and less tied down by statutory limitations, is freer to consociate the interests of the public and those of the profession, and to seek to promote the welfare of the profession as well as that of the public. Credit must be freely given to it for its laudable enterprise in this connection. At its instance, a proposal to form a joint advisory Committee of three of its members, associated with a like number of members of our Council, was formally assented to by our Executive Committee to endeavour to link up the interests of the two bodies.

This Committee, made up of Drs. King, Brodie and Argue, members of our Council, and Drs. Cameron, Burt and Routley, members of the Ontario Medical Association, was called together, and a copy of the report of the proceedings of the Committee will be found on the desk of each member. That ultimate good will come from association of these two representative bodies cannot be doubted. Whether or not, joint effort upon their part will result in present legislation remains to be seen.

With your permission, I should like to devote a few moments to consideration of matters of College concern. Before doing so, I wish to give expression to a feeling of regret, that it falls to my lot to have to remind you of the fact that, since we last met, two members of the College, one, Dr. M. O. Klotz, of Ottawa, a past President of the College, and the other, Dr. A. J. Johnson, of Toronto, at the time of his death a member of the Council, have passed away.

Dr. Klotz, in the course of a comparatively short career, had attained distinction of no mean order, of late years especially as a brilliant surgeon.

Dr. Johnson, while a physician, having, and deservedly enjoying, a very large practice, in this city, was better known probably than any practitioner in Ontario, as an expert in cases involving knowledge of medical jurisprudence. For many years preceding his death, his knowledge and skill were in constant requisition, and his services were availed of in almost all important cases of a medico-legal character occurring in the City of Toronto, or in the Province of Ontario. Our Executive Committee has already forwarded a resolution of condolence to the members of the family of the late Dr. Klotz, and I ask you to offer similar expression of the Council's profound sorrow in the loss sustained by the family of the late Dr. Johnson.

There is missing from our midst today the face of Dr. Griffin, one of our members and one of the oldest members in point of service. Dr. Griffin, I regret to say, is at present confined to his house by illness, and cannot therefore be present at this meeting. I would ask that our sympathy and best wishes be conveyed to him.

The Quadrennial Elections of the College were held last October. In the territorial divisions, there were contests in five divisions only. In each of these, the former sitting member was re-elected. In twelve of the remaining thirteen divisions, the former members were re-elected by acclamation, while in the Middlesex division, Dr. Thompson, of Strathroy, succeeds Dr. F. R. Eccles, of London, retired.

Of the five Homeopathic members of the Council, four of them were again returned, while Dr. W. S. Cody, of Hamilton, was elected to succeed Dr. A. E. Wickins, retired.

The University representatives, as they appeared at the last meeting of the Council, were re-appointed by their respective Universities.

You will join with me, in extending a cordial welcome to Drs. Thompson and Cody, our two new members.

My attention has been drawn by the Registrar to the fact that it is now fourteen years since the date of publication of our last Register.

There are now in print and in the office of the College less copies of the Register, than sufficient to supply each member of the Council with one. Constant demands are being made for copies of the same, which cannot be satisfied, and the office has been obliged to apologize to Medical Councils of sister Provinces.

The Ontario Medical Act is bound in the same volume with the Register. There are many more requests for a copy of the names and of foreign States, for its inability to supply them with copies.

and addresses of our licentiates than for copies of the Ontario Medical Act. Copies of the Medical Act can be had by the public, where required, in the Ontario Statutes, but copies of our Register of names and addresses can be obtained only in this office. It is impossible to know when changes in the Act will be made, following which the Act and a list of licentiates could be published in the one volume, and the cost of the printing of such a combined volume, with the possibility of early changes in the Act, necessitating a correspondingly early printing of another such volume, would not be justified. It comes as a suggestion from the Registrar, that, at a comparatively small cost, the names and addresses of members of the College, known to be resident in Ontario, could be added to the list of those licentiates, who have become such since the publication of our last Announcement, as they will appear in this year's Announcement, and while the Announcement type is still set up, a few hundred extra copies of the lists only could be struck off, sufficient to meet the needs of the College for two or three years to come.

With a view to affording assistance to students, ex-soldiers of the recent war, in recognition of services rendered by them in behalf of the Empire, the Executive Committee gave its formal approval to the practice already adopted by the University of making advances to cover examination fees, such advances being secured by approved notes, running for various periods of time up to two years, without interest. The University has already advanced forty thousand dollars in this way to its students. Advances have been asked for and granted under authority of our Executive Committee to three students, or in all the sum of two hundred and twenty-five dollars (\$225.00).

A complicated situation has arisen, in connection with the regulations between the British Medical Council and our own, having to do with registration in Great Britain of our licentiates, who obtained registration in our College, not following our own examinations, but by direct transfer of their standing in the Medical Council of Canada to our College. The General Medical Council of Great Britain feels that it is not free to enter in its Register the names of Ontario licentiates, obtaining their standing in our College in this way, and not following the passing by them of our own College Examinations.

The point raised is one of great importance, and I suggest, that the question be referred to the Education Committee for consideration and report.

The Registrar has supplied me with some facts, to which serious consideration must be given. The number of candidates offering themselves for our examinations is rapidly increasing. At this time last year, there were one hundred and twenty-eight candidates, while this year the number was one hundred and eighty-four. Heretofore, the Examiners have been able to hold

their final meeting, shortly preceding the Council Meeting, and to have their report in the hands of the Registrar, so as to enable presentation of the same to be made to the Council at its opening session. This year the report is not yet ready for presentation, and if the number of candidates continues increasing in the future, there will not be a long enough interval between the date of the commencement of the examinations, and that of the holding of the Council Annual Meeting, to allow the Examiners' report to be presented to the Council before the latter adjourns.

Some adjustment or rearrangement of this situation will need to be had, and I recommend that the matter be referred to the Education Committee for consideration and report.

In this connection, I desire to draw your attention to some interesting facts, with relation to the number of licenses being issued by the College. The College has during the past eight years been accepting for registration licentiates of the British Medical Council and the Canada Medical Council. The total number of registration entries from all quarters during the period of time in question has been 1,356. This would make a yearly average of 169, while the number registering this year has been 186, an increase this year alone of over ten per cent.

The number of British registrations has been 64, or an average of 8 a year, while this year such registrations have amounted to 24.

The total number of registrations of licentiates of the Canada Medical Council in the years in question has been 124, the number so registering this year being 22.

The total number of Matriculants and Licentiates of our College, asking for certificates to enable them to approach the Canada Medical Council, has been 270, of which 67, or almost exactly twenty-five per cent. of the whole number of applicants for these eight years have obtained their enabling certificates this year.

Matriculation registrations during the eight years have been 1266 in number, an annual average of 158, and of this number the registrations this year have been 252, an increase above the average of about sixty per cent.

While these figures may be wholly gratifying, it necessarily implies an increase in the operation of all the different services of the College, which in the eight years in question has more than doubled.

It cannot have escaped your attention, that the balance on deposit in the Bank is much in excess of the free balance required to conduct the operations of the College, and I ask you to consider whether some of it might not be profitably invested in high class Dominion or Provincial Securities, which at the present time yield an exceedingly attractive return, with as nearly as possible absolute security. The balance as it appears, in the Annual Statement, will be less in amount by about six or seven thousand dollars, after

payments in connection with the holding of the examinations and of the Council Meeting have been met.

In conclusion—I am glad to leave with my able successor, Dr. J. Fenton Argue, a corps of practical and trustworthy men, especially our Registrar, Dr. Aikins, to whom we all heartily wish success, well knowing he will deserve it.

### *Special Committee on President's Address*

Dr. Ferguson and Dr. Argue moved and seconded respectively a resolution that the President's address be referred for consideration to a Special Committee consisting of the following members: Drs. Arthur, Connell, Cruickshank, Hardy and Emmerson.. (Carried.)

### ELECTION OF OFFICERS

#### *President*

Dr. King nominated for the office of President Dr. J. M. MacCallum.

Dr. MacCallum, addressing the Council, explained graciously why he could not accept the nomination, and asked that his name be withdrawn.

## MOTIONS OF WHICH NOTICE HAS BEEN GIVEN

Dr. Brodie moved, seconded by Dr. Emmerson, that "Resolved that the Executive Committee co-operate with the Ontario Medical Association respecting the Excise Duty on Alcohol, used by Physicians for Medicinal Purposes." (Carried.)

Dr. Cruickshank moved, seconded by Dr. Stewart, that "Whereas, it is necessary that every Physician should study after graduation in order to serve the public well, and that one who does not do so deteriorates rapidly, and,

Whereas, the reading of medical and scientific journals, the attendance at meetings of medical societies and short-term clinics are among the best means of maintaining a practitioner's usefulness, and,

Whereas, the cost of journeys by employees in the interests of their employers, in every business are allowed as expenses in computing income for taxation purposes,

Therefore, that this Council, composed of elected representatives of the Medical Profession of this Province, places on record, in the interests of justice and the public welfare, that these costs be allowed as legitimate expenses, in computing physicians' income taxes for Federal purposes, and that a copy of these resolutions be sent to the proper authorities." (Carried.)

Dr. Brodie moved, seconded by Dr. Cruickshank, "Resolved that the Executive Committee of this Council take proceedings to secure a change in the Medical Act, whereby the prosecution of those practicing medicine without a license shall be under the jurisdiction of the Provincial Board of Health." (Lost.)

Dr. King moved, seconded by Dr. Kellam, "That the question of adopting a course in Physical Therapy be recommended, and that the Examiners of this Council be instructed that they may examine on this subject, and that the matter be referred to the Education Committee." (Carried.)

## CONSIDERATION OF REPORTS

### *Joint Advisory Committee*

Dr. King presented the report of the Joint Advisory Committee of the College of Physicians and Surgeons of Ontario, and the Ontario Medical Association.

After discussion of the same, Dr. King moved, seconded by Dr. Brodie, that the report be adopted. (Carried.)

The Executive Committee of the College of Physicians and Surgeons of Ontario in its meeting as of April 7th last, agreed to and did appoint three of its members, Drs. King, Argue and Brodie,

to form, with three members of the Executive of the Ontario Medical Association, an Advisory Committee, to consider questions relating to Medical Legislation.

A meeting of the Advisory Committee was held, and, later, following an interview with the Honourable the Premier, and the Minister of Education, the Joint Committee drew up and issued the following report:—

Toronto, May 26, 1921.

After the first meeting of the Advisory Committee the Chairman was instructed to prepare a statement for the Press, which statement was forwarded to each member of the Committee.

An endeavour was made by letter to the Premier for an appointment with the Premier and the Minister of Education for the purpose of ascertaining whether medical legislation would be introduced at the next Session or not. This letter was written on April 15. No reply was received for two weeks, then a telephone communication revealing the fact that the Session was taking up so much time that it would be impossible to grant an appointment until the House closed. When the Session was over the Minister of Education was unable to grant an appointment for over two weeks. He notified us, however, that the first moment that he could give with the Premier would be given, and on Wednesday, the 18th, we received a message in the afternoon that he and the Premier would receive the Committee on Friday the 20th, at two o'clock in the afternoon.

It was impossible to call the Committee together by mail notice, but each of the members was communicated with by telephone. All approved of the meeting and the object. Dr. Cameron, Dr. Burt and Dr. Argue were not able to be present. The President of the Ontario Medical Association was communicated with and he approved of the meeting and hoped that something would be accomplished thereby. Several names as substitutes were suggested by the members of the Committee, some of whom did not see their way clear to act. However, on Friday the Committee met the Premier and the Minister of Education in the Parliament Buildings. There were present Dr. E. E. King, Chairman, Drs. F. C. Clarkson, Brodie and T. C. Routley.

The Chairman in presenting the matter to the Premier said that, "We are the Advisory Committee appointed by the Executive Committee of the College of Physicians and Surgeons of Ontario, and the Ontario Medical Association. We are desirous of ascertaining the possibility or probability of the Government introducing medical legislation at the next session of the House.

This Committee has to report to the Ontario Medical Associa-

tion which meets at Niagara on the 31st inst. and 1st, 2nd, and 3rd of June, and to the Medical Council which meets in the latter part of June. Neither body meets again for a year."

He drew the attention of the Premier to the decision of the Court of Appeal in 1906 in which the definition of the practice of medicine as defined in Medical Act of 1879 was interpreted to mean the administration of drugs.

That since that time the bars had practically been down and Ontario had been overrun by irregular practitioners, that the Public had suffered therefrom, and the Medical Act, through its administrators, the College of Physicians and Surgeons, did not have the power to stop them. Also that the Medical Council for many years had endeavoured to have this matter corrected, the ~~Medical Act amended with the definition of the practice of Medicine~~ brought up to date to cover the situation, and how that the Council had been refused permission to prosecute irregulars under the Act; of the definite promise made by the late Sir James Whitney that the Medical Act would be amended, and that he would appoint a Commission and investigate the whole matter. The Chairman also pointed out that such Commission had been appointed and had presented its report, that the Commissioner's report had been approved by both the College of Physicians and Surgeons and the Ontario Medical Association, and also that neither the Whitney Government, the Hearst Government nor the present Government had ever sustained the Hodgins Report nor accepted its findings.

The Chairman drew the attention of the Premier to the fact that if a definition of the practice of medicine could be now established that it would be possible to protect the Public from the irregulars, and that the definition as given in the Commissioner's Report (page 66 Statutory Changes) was agreeable to the College of Physicians and Surgeons and the Ontario Medical Association.

And furthermore he drew the attention of the Premier to a letter published by the Advisory Committee, (Globe May 3) in which the stand taken by the Profession in regard to the practice of Medicine was clearly put forward. He also said that the Profession insisted upon standing by preliminary education and professional education and the necessity of passing an examination. A license should then be granted, but that no one should be allowed to practice on the Public who did not receive a license to do so. Also that there was no objection to any Cult providing that those practicing had proper educational ground work on which to base their diagnostic ability.

He further asked the Premier if this Committee could assure their bodies that legislation would be introduced next year to cover these facts.

Matters referring to the above were discussed informally by all the Members of the Committee with the Premier. The Premier and the Minister of Education were exceedingly agreeable, received the Committee in a gracious manner and assured the Committee that they recognized the very unsatisfactory condition of affairs, they desired to clarify the atmosphere and hoped that something would be done at the next Session. There could be no definite promise but they would look favourably upon any suggestion that could be made through the Ontario Medical Association or the College of Physicians and Surgeons dealing with the question. That they would take the matter up at once with the Cabinet and see how the matter could be introduced and carried through the House.

He drew the Committee's attention to the fact that in public matters of this kind the opinions of the Members of the House varied considerably, and that in none of the several groups of the House was there an unanimity of opinion. He felt, however, that the situation as it exists was unsatisfactory and that he would do anything in his power in clearing that situation. He drew the attention of the Committee to the large volume of correspondence that had reached him on this matter, and how some of it was from very prominent people.

The Committee was exceedingly well pleased with the reception given and felt that a considerable advance has been made toward getting medical legislation at the next Session.

#### *Canada Medical Council*

Dr. Arthur moved, seconded by Dr. Walters, that the report of the Canada Medical Council representatives be adopted. (Carried.)

The report follows:

Toronto, Ontario, June 28th, 1921.

To the President and members of the Council of the College of Physicians and Surgeons of Ontario.

Gentlemen:—Your representatives on the Medical Council of Canada beg to report that:—

1. The Ninth Annual Session of the Medical Council of Canada was held in the City of Ottawa on May 31st and June 1st, 1921.

2. The work was largely routine. Appended is a full copy of the minutes of the Council.

3. The examination centres will be the same as last year, examinations will be held in Montreal and Halifax in October, and in Toronto, Winnipeg and Vancouver, next June.

4. In 1920 there were 102 candidates for examination of whom 67 passed, 22 were referred and 13 were rejected. From May 1920 to June 1921, 55 registered under the ten year clause.

5. One clause in the Executive Committee's report reads,—  
“The Executive Committee desires to report to Council, that the

agreement with the College of Physicians and Surgeons of British Columbia, to conduct the only qualifying examinations held in the Province, has been carried out in a mutually satisfactory manner and would recommend to other Provincial Councils the advisability of entering upon a similar relationship." Your representatives do not think such an agreement would at the present be a wise undertaking for the Ontario Medical Council, yet we are persuaded this Council should aid in advising those graduating in Ontario the wisdom of taking the examinations of the Medical Council of Canada.

6. It is a matter of regret to the Medical Council of Canada that so few of its examiners have registered with the Council. Some endeavour is being made to have such appointments from those whose names are on the Council's Register.

Respectfully submitted,

(Sgd.) A. T. Emmerson,  
Tom S. Farncomb.

Permission was granted by the Council to revert to the order "Notices of Motion," whereupon,

#### NOTICES OF MOTION

Dr. Ferguson introduced notion of motion relating to continuation of Joint Advisory Committee; and

Dr. Kellam introduced notice of motion re treatment of Amblyopia in children of six years of age and under.

#### MOTION OF CONDOLENCE

*Dr. A. J. Johnson and Dr. H. S. Griffin*

Dr. Jarvis moved, seconded by Dr. Noble, that letters of condolence be sent to the families of the late Drs. A. J. Johnson, and H. S. Griffin, and that formal letters conveying the same be committed to the care of a special committee composed of Drs. Addison, Noble and Farncomb. (Carried.)

#### ADJOURNMENT

Dr. Stewart moved the adjournment of the Council, to sit again at two o'clock. (Carried.)

Minutes confirmed, June 29th, 1921.

(Sgd.) J. FENTON ARGUE, President.

The Council met at two o'clock, Wednesday afternoon, June 29th, 1921, in the Council Chambers.

### *Roll Call*

The following members responded to the Roll Call: Drs. Addison, Argue, Arthur, Becker, Brodie, Cody, Connell, Cruickshank, Dales, Emmerson, Farncomb, Ferguson, Hardy, Horton, Jarvis, Kellam, King, J. M. MacCallum, S. McCallum, Noble, Routledge, Stewart, Thompson, Walters and Young.

### *Minutes Read*

The Minutes of this morning's session were read and confirmed.

### RECEPTION OF REPORTS

Dr. Hardy presented the report of the Prosecutions Committee.

Dr. Arthur presented the report of the Discipline Committee in the cases of Drs. T. Coleman, H. Mason and W. C. Doyle.

### MOTIONS OF WHICH NOTICE HAD BEEN GIVEN

Dr. King moved, seconded by Dr. Young, "That it is in the interest of public welfare, that post-graduate education should be encouraged, that it is the duty of the Council of the College of Physicians and Surgeons of Ontario to see that this matter is promulgated. We therefore feel that the establishment of lectures on the subject or subjects of most vital interest to public welfare should be organized, and also one lecture in the series devoted to the History of Medicine, and that as far as possible these lectures be delivered in Toronto at the same time as the University Post-Graduate Course."

After discussion, the motion was declared as lost.

Two of the members called for the yeas and nays. The vote, as so taken, is herewith recorded:

Yeas: Drs. Cody, Cruickshank, Dales, Emmerson, Hardy, Kellam, King, J. M. MacCallum, Noble, Walters, Young.—11.

Nays: Drs. Addison, Arthur, Becker, Brodie, Connell, Farncomb, Ferguson, Horton, Jarvis, S. McCallum, Routledge, Stewart, Thompson.—13.

Dr. Ferguson moved, seconded by Dr. Cruickshank, "That the recent action of the Executive Committee in appointing a committee to act jointly with a similar Committee from the Ontario Medical Association, as a Special Advisory Committee, for the purposes of medical legislation, be approved, and that the Committee be continued under the Legislative Committee." (Carried.)

Dr. Kellam moved, seconded by Dr. Brodie, "That the attached minute of the Section of Eye and Ear of the Ontario Medical

Association be adopted by the College of Physicians and Surgeons of Ontario"—

Minute of a Meeting of the Section of Eye and Ear Specialists of the Ontario Medical Association.

Niagara Falls, Ontario, June 2nd, 1921.

WHEREAS:

I. Defective vision or near blindness in one eye (Amblyopia) is very common, numbering thousands in the Province, as medical inspection of our school children has shown.

II. This Amblyopia always sets in before five years of age, and unless remedied before six years of age, the loss of vision is permanent.

III. It is recognized by authorities in all countries that the eyes of young children cannot be correctly tested for glasses without the use of drugs which a licensed medical practitioner alone may use.

IV. An individual with a defective eye is

(a) A loss to the State.

(b) A potential total disability instead of a partial disability under the Workmen's Compensation Act.

It has been unanimously resolved by the oculists in session at the Ontario Medical Association that the Ontario Medical Association urge on the Government of Ontario that none but qualified medical practitioners be permitted to test for glasses, or otherwise treat the eyes of children under six years of age.

This was carried, subject to the proviso that it be referred to our solicitor for advice, and later sent to the Joint Advisory Committee.

CONSIDERATION OF REPORTS—REGISTRATION COMMITTEE

Dr. Connell submitted the report of the Registration Committee. The report was read and, upon motion of Dr. Connell, seconded by Dr. Walters, was adopted. The report follows:

MOTIONS OF WHICH NOTICE HAD BEEN GIVEN

*Information Bureau and Bulletin*

It was moved by Dr. E. T. Kellam, seconded by Dr. J. J. Walters:

“That whereas it would be advantageous to the members of the Council of the College of Physicians and Surgeons, as well as to the members of the Profession at large, to have a bulletin issued at intervals or annually by the Council as to the disposal of recommendations of the Council and as to matters of general welfare to the medical profession, be it resolved, That the Executive Committee be instructed to consider the matter and be given power to act.” (Lost.)

CONSIDERATION OF REPORTS—EDUCATION COMMITTEE

After reading same, Dr. J. M. MacCallum moved, seconded by Dr. Ferguson, that the report of the Education Committee be adopted.

Subject to an amendment, moved by Dr. Ferguson and seconded by Dr. Brodie, that in the third paragraph of the report the word “Registrar” be substituted for the word “Solicitor,” the motion was declared to be carried.

The report follows:

THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO

---

REPORT OF EDUCATION COMMITTEE FOR THE  
YEAR ENDING, JUNE, 1921

To the Ontario Medical Council.

Gentlemen:—Your Committee begs to report as follows:

The Registrar of the Nova Scotia Medical Council writes suggesting a uniform date for the Council Examinations in all the

Provinces of the Dominion. Your Committee reports that this would be impracticable in the case of Ontario.

The application of H. S. Foley, Detroit, Mich., was considered. He requests matriculation registration with a view to admission to our license examination. Refused admission to license examination on the ground that his University course is inadequate.

Re Dr. L. E. Sauriol, Kingston, Ontario:—He writes complaining that Registrar King of the British Medical Council declines to register him in Great Britain, because his Ontario Certificate was obtained through the Canada Medical Council examination. We recommend that the opinion of our solicitor be asked as to whether Dr. Sauriol is eligible for registration in Great Britain, under Clause 1, page 33 of the Reciprocity Act with Great Britain and, if not eligible, we further recommend that negotiations through our Registrar be entered into with the Medical Council of Great Britain to remove this anomaly.

In view of the impossibility of a single board of examiners being able to conduct the 1922 Midsummer Examinations in time to meet the purposes of the Council it is recommended by your Committee that a Dual Board of Examiners be appointed, one for the purpose of the Oral and Clinical Examination and the other Board for the purpose of the Written Examination the results thereby being reported as expeditiously as possible. It is therefore recommended that Section 4, Paragraph 9, Clause "G" shall be amended to read as follows:—

"There shall be a dual board of examiners, namely, one set of two examiners in each subject who shall conjointly set and examine each paper in the written examination and another set of two examiners in each subject who shall conjointly examine each student in the Oral and Clinical Examination."

The following examiners are recommended for the Fall Examination of 1921:—

#### *Surgery*

Dr. T. H. Middlebro, Owen Sound, Ont.  
Dr. R. R. Graham, Toronto, Ont.

#### *Medicine and Preventive Medicine*

Dr. W. T. Connell, Kingston, Ont.

*Homeopathic Examiners*

Dr. E. K. Richardson, Toronto, Ont.

Dr. Hugh Porter, Hamilton, Ont.

*Alternative Homeopathic Examiner*

Dr. K. A. McLaren, Toronto, Ont.

The Committee recommend that the Announcement, Section No. 2 Curriculum, Paragraph No. 3, shall read after the word "Therapeutics": Physio-Therapy (including Hydro-Therapy, Electro-Therapy, Massage and Manipulative treatment, X-ray and Radio-Therapy.)

The following Colleges were recommended to be added to the accredited list, namely:—

Columbus Homeopathic College, Ohio.

New York Homeopathic College and Flower Hospital

To be struck off the present list:—

Boston Homeopathic Collège.

Add to Therapeutics section:—

Section 3, Paragraph 3, (1) "Medicine" shall read "Medicine and Preventive Medicine."

The dates recommended for the Examinations are as follows:—

The Fall Examination, the 2nd Tuesday in November, 1921.

The Midsummer Examination, Tuesday, June 6th, 1922.

Respectfully submitted,

(Sgd.) J. M. MacCallum, Chairman.

R. Ferguson, Secretary.

#### EXAMINATIONS

Dr. Routledge, Chairman of the Board of Examiners, submitted the annual report of the results of the examinations, held in the Fall of 1920, and in the Spring of 1921.

Following the reading of the Report, Dr. Routledge moved, seconded by Dr. Kellam, its adoption. Motion declared carried.

PRINTING AND PROPERTY COMMITTEE REPORT

After the report of the Printing and Property Committee had been read, its adoption was moved by Dr. Addison, seconded by Dr. Thompson, and it was carried.

The report is as follows:

Your Printing and Property Committee would report that they have inspected the building of the College from cellar to roof, and would report that the building is old and that the inner walls and floors are settling. The lower floor is shored under the safe, and is reported by architects to be in safe condition for the present. The building is kept in an excellent condition of cleanliness. There are some minor repairs necessary to the fences and furnace, and we would request authority to deal with these repairs, as found necessary.

The Committee would report that the printing of the Announcement was let last year to the lowest tenderer, the Armac Press, and would recommend that the procedure of last year be followed this year.

They would recommend that, pending probable legislation re the Medical Act, the publication of the complete Register be postponed, and that additions to the Register continue to be published in the Announcement, and special copies of the above-mentioned part be printed, to be used as a supplement to the existing published Register.

## SPECIAL COMMITTEE ON PRESIDENT'S ADDRESS

The Special Committee appointed to review the President's address presented its report. After reading of the same, Dr. Arthur moved, seconded by Dr. Connell, that it be adopted. The motion was carried. The report follows:

Your Committee on the President's address beg to report as follows: Re the Joint Advisory Committee, it is our opinion, in view of our legislative responsibilities, we feel the Council representatives should be in a majority, and that they be members of and appointed by the Legislative Committee, and that this Council consider its duties as purely advisory, and not legislative.

The Committee endorses the opinion of the President, that a new list of licentiates be prepared, in accordance with the suggestions of the address.

## REGISTRATION COMMITTEE'S REPORT

The Registration Committee's Supplemental Report was read, with the following recommendations:

“Re candidate Number 124—the requesting for her, that she be granted a license, after having taken a three months' training in a Teaching Hospital in Ontario, be not granted.”

The report was adopted on motion of Dr. Connell, seconded by Dr. Hardy.

## SUPPLEMENTAL REPORT OF FINANCE COMMITTEE

The Supplemental Report of the Finance Committee, as submitted by Dr. Becker, Chairman of the same, was then taken up.

Upon motion of Dr. Brodie, seconded by Dr. Kellam, the report was adopted.

The Report follows:

We are submitting statement of the assets and liabilities of the College.

The assets of the College consist of its property and equipment, of cash on deposit, long term bonds, overdue assessment fees, students' notes and unexpired portion of fire insurance premium.

The value of the property is unknown. It cost when purchased in 1908, the sum of eighteen thousand, and fifty-three dollars and seventy-five cents.

Its present assessed value, as ascertained today at the City Hall, is \$23,250.00.

As the property will not again be used for residential purposes, the building situated on it cannot be regarded as having any appre-

cial value. There have not been many sales of land on the Avenue recently, so that no means is afforded of determining even its approximate value.

The cash on deposit, as of June 21st inst., was \$45,366.57.

The bonds held by the College consist of \$25,000.00 of the Province of Ontario, purchased in 1909, and carrying four per cent. interest. They do not mature until the year 1939. Owing to the recent issue by the Province of bonds carrying six per cent., the value of earlier issues, carrying four per cent., has materially decreased.

The other bonds held by the College consist of \$10,000.00 of one of the earlier Dominion War Loan issues, bearing five per cent., and \$15,000.00 of the last Victory Loan issue, bearing five and a half per cent. The market value of these bonds is less than par, and fluctuating from day to day.

Up to June 21st 1921, there is accumulated interest on these bonds, amounting to \$142.65.

The overdue assessment fees, which can be collected, might be estimated to be as of the value of fifteen hundred dollars.

The students' notes have a value of two hundred and twenty-five dollars.

The furniture of the College might be put down as of the value of from five hundred to eight hundred dollars.

The unexpired portion of the fire insurance premium would be of the value of about thirty dollars.

The Assets of the College might be thus represented:—

The College property,

170 University Avenue, assessed value .....	\$23,250	00
Cash on deposit .....	45,366	57
Long term Provincial and Dominion bonds, face value .....	50,000	00
Accrued interest thereon .....	142	65
Overdue assessment fees, approximately .....	1,500	00
Students' notes .....	225	00
Furniture, approximately .....	600	00
Unexpired portion of fire insurance premium, approximately .....	30	00
	<hr/>	
	\$121,114	22

The Liabilities of the College consist of:—

Current obligations, incurred largely since the date of issue of the Annual Statement, June 21st 1921, and amounting approximately to .....	\$	8,000	00
Apparent surplus of Assets over Liabilities .....		113,114	22
		<hr/>	
		\$121,114	22

(Sgd.) H. BECKER,

Chairman, Finance Committee.

## REPORT OF RULES AND REGULATIONS COMMITTEE

The Report of the Rules and Regulations Committee was then considered.

The by-laws contained in the report were taken as read in Council a first time. On motion of Dr. Jarvis, seconded by Dr. Horton, the Council went into Committee of the Whole, to consider the report clause by clause. At the request of the President, the Chair was taken up by Dr. King.

The report was then read clause by clause, considered and adopted in the Committee of the Whole.

On motion of Dr. Arthur, seconded by Dr. Jarvis, the Committee rose, the President took the chair and the Chairman reported the by-laws as adopted in Committee of the Whole.

Dr. Cruickshank moved, seconded by Dr. Ferguson, that the report of the Rules and Regulations Committee, as adopted by in Committee of the Whole, be now read a third time, adopted in Council, signed by the President and sealed with the seal of the College. (Carried.)

(For by-laws, see page 27 of the Annual Announcement.)

## MISCELLANEOUS

Dr. Walters moved, seconded by Dr. King, "That a Committee, consisting of Drs. Argue, Kellam and Hardy, with the mover and seconder, be appointed, to take up the matter of a new College building, to get sketch plans prepared for presentation to the Council at the next annual meeting, and a sum not exceeding five hundred dollars be placed at the disposal of this Committee for the above purpose." (Motion declared lost.)

Dr. Becker moved, seconded by Dr. Ferguson, "that a bonus of fifty dollars to each Examiner be allowed, and that the question of the investment of surplus funds be referred to the Executive Committee." (Carried.)

The following motion was also declared as carried:

Moved by Dr. J. C. Connell, seconded by Dr. E. T. Kellam, "That the Council desires to express, and have conveyed to Dr. Spankie its sympathy with him in his illness and that no deduction be made from the usual sessional indemnity, payable to members of the Council, in his case."

Dr. Ferguson moved, seconded by Dr. King, a vote of thanks to Dr. Argue for his ability, courtesy and urbanity, in the discharge of his duties as presiding officer of the Council in its daily sessions. (Carried.)

Dr. Argue graciously responded to the vote of thanks.

The Council adjourned for a ten-minute interval to allow the Legislative Committee to meet for organization purposes. Upon reassembling, Dr. King reported the Committee as having carried a resolution appointing Drs. King, Farncomb, Noble and Brodie as representatives of the Legislative Committee on the Joint Advisory Committee.

The minutes of this session of the Council were then read, and formally approved.

Dr. Horton moved the adjournment of the Council. (Carried.)

(Sgd.) J. FENTON ARGUE, President.

June 30th, 1921.

## RÉSUMÉ

### To the Members of the College:

Under direction of the Council of the College, I am submitting *rèsumè* of proceedings of its annual meeting, and, associated with same, brief reference to matters of moment of joint public and professional interest, occurring in the interval-period between the last and the present meeting of the Council.

### Dr. Routledge's Presidential Address

The members of the College will read with profit the annual address of the President.

Apart from its references to public questions affecting the College, it contains much of interest to the members of the College relating to the internal economy of the same.

For address, see page 47.)

### Quadrennial Elections

The quadrennial elections of the College were held in October 1920.

Of the eighteen territorial representatives, seventeen, who had been members of the retiring Council, were again candidates, and were all re-elected. There were contests in five constituencies only, without change in representation.

In Division No. 3, Dr. A. S. Thompson, of Strathroy, was elected by acclamation, to succeed the late Dr. Eccles, resigned.

Dr. A. S. Cody, of Hamilton, was elected to fill the vacancy created by the resignation of Dr. A. E. Wickins, resigned. This was the only change in the Homeopathic section of the Council, the other members being re-elected.

The Universities reappointed their former representatives, to sit in the new Council. The Council, as thus elected, is made up as follows:—

Territorial representatives:— Drs. J. F. Argue, R. H. Arthur, G. M. Brodie, G. R. Cruickshank, F. A. Dales, A. T. Emmerson, T. S. Farncomb, H. S. Griffin, R. N. Horton, E. T. Kellam, E. E. King, S. McCallum, R. T. Noble, W. Spankie, A. D. Stewart, A. S. Thompson, J. J. Walters, T. W. H. Young.

Homeopathic representatives:—Drs. H. Becker, A. S. Cody, E. A. P. Hardy, C. E. Jarvis, G. A. Routledge.

University representatives:—Drs. W. L. T. Addison, J. L. Chabot, J. C. Connell, R. Ferguson, A. J. Johnson, J. M. MacCallum.

## **Medical Legislation**

The Council of the College has for many years consistently sought to bring about accomplishment, *inter alia*, of two very laudable aims, the one, that of exhausting every means available to force candidates for its license to qualify under the highest standards, the other, that of impressing upon the authorities the necessity of eliminating through legislative action the practice of cults, which call for little or no knowledge of the human body, of its varied activities in health and disease.

The one object has been accomplished, as far at least, as it is possible to reach finality in anything which may be held to offer illuminating illustration of "eternal process moving on." There is probably no higher standard set anywhere for license to practice medicine, than in the Province of Ontario.

The other object has not been accomplished. Under the law, as interpreted in our Courts, men who have not shewn themselves in any way qualified to meet the requirements associated with the granting of a license to practice medicine in the Province of Ontario are apparently free to do so. Long periods of study and rigid examinations constitute in the minds of the public safeguards, wisely provided to guarantee efficiency and to assure service of a high order. No great flight of imagination is needed to picture the infinite harm which may result to the community in general, with the removal of these safeguards.

Specious representations always appeal to certain elements in the community. The law, in general, takes cognizance of such representations, where they concern financial transactions, but the same law makes quite inadequate provision, for dealing with representations, having definite relationship to questions of personal physical welfare and public health, embodying claims for which no basis in fact can be found, and which, for the most part, if not wholly untrue, are at least hopelessly misleading. These representations become positive menace to the community, when they openly disregard and seek to nullify all the teachings of modern preventive medicine.

The mass of the people is in academic sympathy with every legitimate move having for object the solution of problems affecting public health, and this sympathy is expressed in the shape of public grants and private benefactions, but the mass of the people, at the same time, lays to its soul the flattering unction, that, having ex-

pressed sympathy and provided endowment, its duty ceases. Possibly, no task in life is less burdensome, or more agreeable, than that of relegating duties to others. The public passes on to the Legislature the task of making due provision for its own physical welfare.

Democratic institutions line up with the spirit of the age, but democratic institutions do not always attain the ideal in their practical evolution. One looks in vain for explanation of the dual phenomenon of raising the standard and lowering the bars. Millions of money freely devoted to aiding science to unfold the secrets of nature, with the beneficent purpose of alleviating suffering and banishing disease, marching with tacit recognition of cults, whose disciples make light of the marvellous attainments of science, and whose literature abounds with appeals to all that is sordid and venal.

This anomaly is one, which cannot continue indefinitely. Pure science and crass ignorance have nothing in common. The medical profession holds itself in duty bound, through its representative bodies, to direct the attention of the Government, to the hopelessly illogical admixture of scientific exploring with scientific exploiting, as found to exist today in the Province of Ontario.

With this object in view, a Joint Committee, selected from the Executives of the College of Physicians and Surgeons of Ontario and the Ontario Medical Association, waited upon the Honourable the Premier of Ontario, and the Honourable the Minister of Education, following prorogation of the House.

The Committee sought to make it apparent to the Ministers in question, that the interests of the public must suffer through any policy permitting continued perpetuation of impossible relationships, with the definite settlement of which earlier administrations had been confronted, but had not deemed to be of moment sufficient to demand immediate or imperative action.

Exception could not be taken to the courtesy, with which the Committee was received, nor to the expression of sympathy graciously extended to it. The Premier was absolutely frank, in admitting that the situation was unsatisfactory, but, while assuring the deputation that he was personally kindly disposed, he made it quite clear, that, in a question of this nature, involving widely diverging interests, he could not assume the responsibility of undertaking to commit the individual members of the House to approval of the views submitted to him.

No definite undertaking was accordingly given by him, beyond a promise to have the Cabinet give the medical situation careful consideration, with the added hope, that the House might find ways and means to meet the views of the profession, as presented to him by the Joint Committee, representing it.

The aim of preventive medicine is to eradicate disease. The best brains of the most intelligent peoples of the world are concentrated to-day upon the problems of unravelling the cause of disease. The solution of the problem will not come through "drawing a bow at a venture," but through unremitting laboratory and bedside research, and the profession is directing its energies to conducting this colossal task along lines purely logical and scientific.

The concrete results of such intensive studies enure directly to the benefit of the people itself. Is it not reasonable, is it not logical, to suppose, that the people who thus directly benefit from scientific research should be the first to accord to it the recognition it deserves, and the first to discountenance specious representations, and spurious claims?

Where it concerns the best interests of the community, should any legislative body hesitate to choose between facts, ascertained to rest upon established foundations, and claims which are unproven and chimerical, and which, moreover, are not shewn to be wholly divorced from suspicion of an element of self-interest?

The obvious duty of the profession is to sound the alarm. Beyond this, it should not be called upon to pass. It would be guilty of wanton discourtesy, if it were to assume a need to intimate to those in charge of legislation, that toleration of conditions known to exist, inimical to the welfare of the community as a whole, is quite inconsistent with reasonable interpretation of the duties and responsibilities of high office.

More should not be asked of the medical profession than dignified presentation of facts.

Responsibility for providing appropriate remedy for ills, known to exist, and known to operate adversely to the attainment of the lofty ends contemplated in the well conceived and honestly directed efforts of modern medical science to eliminate chance and chicanery, and to seek solution of problems of health and disease, through employment of scientific methods only, rests with the Legislature.

## **Physical Therapy**

Some years ago, while still a member of the Council, Dr. John S. Hart, representing the District of West Toronto, advocated the claims of Physical Therapy, and asked for it the wider recognition which he felt that it deserved in the curriculum of studies. Since then, increasing attention has been given to the subject, and at the recent Council Meeting, Dr. Edmund E. King moved a resolution, of which the Council approved, affirming the necessity of making a larger place for the study of this department of medical science.

The teaching of Physical Therapy has been for a long period of time carried on in connection with the general teaching of medi-

cine, but the discovery of phenomena in the world of the natural sciences, until recently unknown, and improved methods devised for the purpose of its better practical application, have served to widen its sphere of usefulness, and the Council by its recent action has set its seal once more upon the value it attaches to this branch of medical science.

### **Medical Council of Canada**

The report of the proceedings of the annual meeting of the Canada Medical Council, as presented by Drs. Emmerson and Farncomb, representatives therein of the College of Physicians and Surgeons of Ontario, contains the interesting announcement, that the Medical Council of British Columbia has effected arrangements with the Canada Medical Council, to have the latter body's qualifying examinations supersede those of the Provincial Council, so that candidates hereafter seeking licentiate standing in British Columbia by examination, must pass the examinations of the Canada Medical Council.

Hope was expressed by the Canada Medical Council, that "in due season" the other Provincial Councils would "fall into line." The College representatives did not feel, that it would be opportune, at the present juncture, for the Ontario Medical Council to subordinate its powers in the matter of holding qualifying examinations in Ontario, in favour of the Medical Council of Canada.

The Council found itself in sympathy with the views of its representatives in this regard.

### **Action of the Council upon the Report of its Discipline Committee**

Four cases came before the Discipline Committee for investigation.

In one of these, a member of the College was asked to explain why a Police Court conviction had been registered against him, in connection with excessive prescription of narcotic drugs.

The straightforward manner in which he gave his evidence, and his absolute candour, convinced the Committee of the truthfulness of his statements, and the Committee recommended that no adverse action be taken. Acting upon advice, the soundness of which he had not called in question, and for the purpose of avoiding publicity, he had pleaded guilty in private audience, where it was well within reason to believe that a conviction would not have been recorded against him in open court.

In the other three cases, the Committee held that the charges had been proven, and recommended suspension of the members in question.

Each of the charges involved a police court conviction, for contravention of the provisions of the Ontario Temperance Act.

The Council, in sustaining the recommendation of the Committee, once more placed itself on record, as determined to lend its aid to the authorities in their attempt to secure enforcement of the Act, and as equally determined to make it apparent to any member of the College, who, for reasons of his own and not disclosed, appears to regard as matter of indifference the discredit which his own misconduct brings upon the profession as a whole, that the College is official representative of the profession in Ontario, under sacred obligation to regard as inviolable the sense of honour, inherited by it as birthright, and to maintain without dimming, the lustre attaching to its high achievements of the past.

### **Government Analysis of Pharmaceutical Preparations**

Dr. G. M. Brodie, of Woodstock, has urged for some years back the wisdom of having the Federal Government institute a laboratory for analysis of pharmaceutical preparations.

The President of the College, in his annual address, (see page — of the annual announcement) refers at length to this subject. He quotes a passage from a communication of the Chief Officer of Health for Ontario, to the effect that assurance was given him by the Deputy Minister of Health at Ottawa, that "he expected to have a laboratory established, and when it was established, it was proposed to carry on therein the examination of the various drugs and other products used in the treatment of disease."

The need for such analysis must be apparent to all who handle these preparations, and the thanks of the medical profession are due to Dr. Brodie, for his persistent endeavours in this connection.

### **Register of the Members of the College, known to be Resident and Practicing in Ontario**

For the convenience of members of the College, of the various Boards, whose activities are more or less interwoven with those of the College, and for the use of the public, there is being published in this year's Annual Announcement a list of licentiates, known to be engaged in the practice of medicine in the Province of Ontario.

The list does not include those of the licentiates, practicing in other Provinces of Canada, or abroad.

The Council in annual session deferred for the present publication of a Register, containing the Ontario Medical Act, in view of changes in the same, which are looked for as likely to be made in the early future.

## University of Ottawa

Dr. J. L. Chabot of Ottawa, graduate in Arts of the University of Ottawa, and graduate in Medicine of McGill University, has been selected by the University of Ottawa, to represent it in the Council of the College of Physicians and Surgeons of Ontario, to succeed the late Sir James Grant.

## Obituary

During the course of the Council year, Dr. M. O. Klotz, a former president of the Council, died, following a brief attack of pneumonia.

Dr. Klotz had had as a student a distinguished career at the University. He located in Ottawa, and in a very short time assumed a leading position in the profession there. Returning a few years ago from an extended period of study abroad, he devoted himself largely to consultation and surgical work, and was at the height of his career, when the call came. He was electric with energy, clear in conception, brilliant in execution.

The College mourns his loss, as one of her brightest younger sons, who had "won his path upward and prevailed," and one for whom the future seemed to have in store abiding laurels.

---

Shortly before the Council met in annual session, Dr. Arthur Jukes Johnson passed away, after a prolonged illness. Dr. Johnson had for many years represented Trinity University, in the Council of the College. The University could not have made a happier selection. No one ever sat in the Council Chamber, who could establish better claim to equilibrium and poise, with well-balanced judgment, fortified by long, varied and rich experience.

Throughout a long and useful life, he was always a student, very generously endowed by nature with a faculty for keen analysis, which served him in good stead, when called upon to meet the demands of the community, in which he resided, for exercise of clear reasoning and sound judgment, in the various directions, in which his public activities were engaged.

In his personal relationships, he was felicitous to a degree, and those who were privileged to enjoy his more immediate acquaintance can never forget his personal charm, and the warmth and sincerity of his friendship.

---

Dr. H. S. Griffin, of Hamilton, a member of the Council, was not able to attend the Council Meeting, as he passed away in the evening of the day, in the afternoon of which the Council held its opening session.

Dr. Griffin was the most gifted member of his University class, and was conspicuous for scholarship. He was gold medallist of his year—facile princeps.

In point of service, he was one of the oldest of the Council members, representing in succession for long periods of time first Victoria University and later Division No. 7. For one year he was President of the Council.

Dr. Griffin was always willing to lend himself to a life of sacrifice, in season and out of season, whether at the bedside, in the operating room, or in his relationship to public service. In his long membership in the Council, he never failed to place at its disposal, in abounding measure, those abilities and faculties, with which nature had so generously endowed him, and which made him conspicuous among his fellows.

He had the happy faculty of exhibiting at one and the same time the “fortiter in re” and the “suaviter in modo.”

His personality—everybody loved him.

---

As well as the above, there were matters of less concern, and of routine character, engaging the attention of the Council in its annual session, to which reference need not be had.

Respectfully,

H. WILBERFORCE AIKINS, Registrar.

July 1921.
